

Feature Phone 175

The FeaturePhone 175 operates in the same way as any telephone with the advantage that all calls are automatically recorded.

Manufacturer: Vidicode

Reference:ref. 1520

Price: 1.143,45€

Description:

The FeaturePhone 175 operates in the same way as any telephone with the advantage that all calls are automatically recorded.

This is how easy call recording and play back of your calls can be.

The Featurephone 175 is an advanced telephone with features like a internal telephone directory of 500 names and numbers, the possibility to attach a headset directly, use handsfree and dial from your PC.

The FP175 can even be used as an answering machine with almost unlimited storage on CD. Even other telephones (e.g. a DECT phone) attached to the same analogue line will be recorded automatically by the FeaturePhone 175.

The large and clearly lit graphic display provides help with all functions enabling you to actually use the many features provided.
