

**Verso LTE basic video module - HD camera - 1 button**

Video module with HD camera - 1 button - Without installation box - Need 915502x to be installed on the wall (surface) or 915501x frame + 915501x box to be installed in the wall (flush)

**Manufacturer:** 2N

**Reference:**H9155401-C

**Price:** 1.501,61€

**Description:**

2N<sup>®</sup> LTE Verso combines minimum installation costs with a full-feature set.

Using LTE technology means no other cable apart from a power supply is needed, with a benefit of all functionalities such as a video communication.

The main unit with HD camera can be accompanied by RFID reader, Bluetooth or Fingerprint reader supporting modules.
