Verso LTE basic video module black - HD camera - 1 button

Video module with HD camera - 1 button - Without installation box - Need 915502x to be installed on the wall (surface) or 915501x frame + 915501x box to be installed in the wall (flush)

Manufacturer: 2N
Reference:H9155401-CB

Price: 1.501,61€

Description:

2N® LTE Verso combines minimum installation costs with a full-feature set.

Using LTE technology means no other cable apart from a power supply is needed, with a benefit of all functionalities such as a video communication.

The main unit with HD camera can be accompanied by RFID reader, Bluetooth or Fingerprint reader supporting modules.
